EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Hunter E. Webb, Reg. No. 54593 on Sept 4, 2008.

The application has been amended as follows:

1. Claims 1 and 7 are cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

1. See applicant's remark, pgs. 8-10, filed on June 30, 2008.
2. The closest prior art is Netscan.
3. Regarding independent claim 8, Netscan only measures interactivity of newsgroups, thus fails to teach or make obvious the closed-ended limitation "wherein the plurality of collaborative spaces are selected from the group **consisting of** Internet chat rooms, instant message exchanges, electronic mail exchanges, exchange databases, document management systems, and client-server collaborative software and email system databases;". The transitional phrase "consisting of" excludes any element, step, or ingredient not specified in the claim.

4. Furthermore, Netscan only uses number of thread/post as interactivity metric. Netscan does not measure other metrics, such as “wherein the interactivity metrics include at least one of the following: a probability of response to postings by the users, an average time of response to the postings, an average thread duration corresponding to the postings, an average time between responses to the postings and an average depth of a thread tree corresponding to the postings;” as recited in independent claim 8.

5. Independent claim 13 is likewise, directed to a computer implemented system comprising at least one computer (i.e. physical structure) performing the method of claim 8. It is allowable for the same reason as independent claim 8.

6. Independent claim 18 is likewise, directed to a program product stored on a recordable medium performing the method of claim 8. It is allowable for the same reason as independent claim 8. Examiner Note: (1) For the purpose of examination, claim 18 is being treated as the combination of the program and the medium, not just the program itself. (2) Applicant **has** provided antecedent basis for the claim terminology “recordable medium”. However, applicant **has not** provided an explicit and deliberate definition of the terminology. The term “recordable medium” is interpreted under benefit of doubt that it is directed to tangible and statutory medium (e.g. a computer memory).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
